About Me

I'm Tinh, a fourth-year Software Engineering student at HUTECH University, with nearly four years of studying and living in Ho Chi Minh City. I strive to balance logical problem-solving with aesthetic sensitivity in UI/UX design.

Technical Skills

- HTML, CSS, JavaScript
- Bootstrap
- Basic UI/UX Design
- Git / GitHub

Soft Skills

- Problem Solving
- Critical Thinking
- Creativity
- Teamwork

Education

Bachelor of Information Technology (Software Engineering)

Present

HUTECH University

Currently a fourth-year student majoring in Information Technology, specializing in Software Engineering. Focused on developing practical web applications and strengthening both logical thinking and UI/UX design skills

Information Technology Student

2022

HUTECH University

Started studying Information Technology at HUTECH University. This marked the beginning of my journey into programming and software development.

Projects / Academic Projects

AI-powered Restaurant Ordering Assistant

Frontend Developer (UI/UX)

10/2025 - 12/2025

Developed a responsive chat-based user interface for an AI-powered food ordering system. Designed intuitive UI/UX flows to support natural Vietnamese ordering behavior. Implemented real-time cart updates for seamless user interaction. Collaborated with backend and AI workflows to integrate frontend with system logic.

Technologies: HTML, CSS, JavaScript, Bootstrap, REST API, UI/UX Design

Personal Blog & Portfolio (Astro + React)

Frontend Developer

11/2025 - 12/2025

- Built a high-performance personal blog using Astro (SSG) and React Islands
- Migrated from React SPA → Astro SSG to improve SEO and page load speed
- Designed UI with TailwindCSS following a Neo-Brutalist style
- Applied TypeScript and lightweight state management (Nano Stores)

Technologies: Astro, React, TypeScript, TailwindCSS
